

" Our name says it all "

**Piranha Jr.™** A LESS EXPENSIVE VERSION OF OUR VERATILE **Piranha™** DEMOLITION - RESCUE BLADE engineered to cope with a variety of difficult to cut materials that so often frustrate Fire, Police and Emergency Rescuers.

**Cuts through any of these materials.**

- Insulation and materials
- Padlocks and hinges
- Auto body panels
- Fire doors
- Tires
- Sheet metal, tin
- Sheet aluminum
- Ice, frozen materials
- Wood-metal studding
- Dry wall
- PVC pipe
- Stucco
- Wire glass
- Lexan
- Hardwood flooring
- Chain link fencing
- Cardboard
- Pallets
- Fiberglass
- Corrugated roofing
- Plastic
- Reinforced rubber
- Chip board
- Hardie Board
- Decking
- Tile Backer Board
- Rebar
- Roofing tile

**NO SHARPENING REQUIRED -- CUTS IN EITHER DIRECTION**

Vacuum bonded with large, exposed diamond grit particles on the kerf and .160 diamond wrap on each side of the blade.

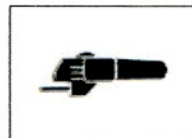

When sawing, . . . Always wear safety goggles, dust mask and other protective clothing.
